

There are a number of standards used in the industry that directly apply or relate to our products. This listing includes commonly referenced documents, but is not necessarily all-inclusive:

American Society for Testing and Materials (ASTM):

- C 755, Practice for Selection of Water Vapor Retarders for Thermal Insulation
- C 921, Practice for Determining the Properties of Jacketing Materials for Thermal Insulation
- C 991, Specification for Flexible Fiber Insulation for Pre-Engineered Metal Buildings
- C 1136, Specification for Flexible, Low Permeance Vapor Retarders for Thermal Insulation
- C 1313, Specification for Sheet Radiant Barriers for Building Construction Applications
- C 1423, Guide for Selecting Jacketing Materials for Thermal Insulation
- E 84, Test Method for Surface Burning Characteristics of Building Materials
- E 96, Test Methods for Water Vapor Transmission of Materials

American Society of Heating, Refrigeration, and Air conditioning Engineers (ASHRAE):

- Fundamentals Chapter 23, Thermal and Moisture Control in Insulated Assemblies-Fundamentals
- Fundamentals Chapter 24, Thermal and Moisture Control in Insulated Assemblies-Applications
- Fundamentals Chapter 26, Insulation for Mechanical Systems

Underwriter's Laboratories (U.L.):

- UL 723, Test for Surface Burning Characteristics of Building Materials

National Fire Protection Association (NFPA):

- NFPA 255, Test Method for Surface Burning Characteristics of Building Materials

FURTHER INFORMATION:

For further information or to discuss specific questions on these or other standards, please contact our Technical Service Manager at 1-877-5COMPAC (1-877-526-6722).
